**Hiring Manager**

Microsoft

Dear Hiring Manager,

I am writing to express my interest in the Software Engineering Internship at Goldman Sachs as part of your Engineering Campus Hiring Program. I am currently pursuing a degree in Computer Science at Chennai Institute of Technology, and I am passionate about leveraging technology to solve complex problems. I am particularly excited about the opportunity to contribute to Goldman Sachs, an organization known for its innovation and leadership in the financial industry.

During my academic journey, I have developed strong programming skills in languages such as C++, Python, and JavaScript. I have worked on various projects, including a recent one where I used Next.js to enhance user experience and integrated AI-driven content with GPT-3.5. These experiences have not only refined my technical abilities but also taught me the importance of teamwork and time management in delivering high-quality solutions.

Goldman Sachs' commitment to pushing the boundaries of technology and its focus on professional development resonates deeply with me. I am particularly inspired by your engineers' role in creating scalable software, architecting low latency infrastructure, and leveraging machine learning to drive financial markets. I am eager to bring my technical skills, creativity, and enthusiasm to your team, contributing to impactful projects that shape the future of finance.

Thank you for considering my application. I look forward to the opportunity to discuss how my background and skills align with the goals of Goldman Sachs.

Sincerely,

Kondlapudi Sai Dithvika
